

V6000

OPERATOR FOR
OVERHEAD GARAGE
AND SECTIONAL
DOORS

CAME

Evolved solution for garage doors.

The V6000 is an operator designed to power all types of garage doors in residential settings: counter-weighted overhead, or spring loaded and sectional doors. The 24 V DC electronics ensure maximum performance for users, and gives a maximum traction force of 600 N.

LOW CONSUMPTION LED FLASHING LIGHT

SURFACE-MOUNTED SELECTOR

Dimensions (mm)

Benefits that become solutions.

PRACTICAL FOR ALL NEEDS

Refined, elegant design, made with first-class materials such as polished polycarbonate, but also built and tested to be reliable. The various chain guides and timing belt let the operator adapt to any type of door and installation needs.

TOTAL CONTROL

- Built-in display for viewing and memorizing features.
- Built-in management and control board.
- Adapter arm makes counter-weighted overhead door movement much smoother (optional).
- Pull-cord transmission lever for manually releasing the operator - can be connected to the door handle, for opening from outside (optional).
- Courtesy light for lighting the room and making access safer - with automatic shut-off.
- Emergency battery housing (optional).

Applications

BC - Protruding partially-retracting overhead door (con 001V201)

BM - Protruding totally retracting overhead door

STA - SECTIONAL Type A with single guide

STB - SECTIONAL Type B with double guide

H = Maximum door height

* Maximum space height taken up by door when moving (about 2/3 of the opening)

EN TESTED safety

An electromechanical EN TESTED branded system always ensures safe controlled operation of moving doors, in compliance with current legislative standards in terms of impact forces.

Guaranteed by 24 Volts

Systems running at 24 Volts are super safe use and very reliable under intense working conditions, such as those found at residential apartment complexes and industrial facilities. Moreover, 24 Volt systems work even during power outages, thanks to the optional batteries.

Read up at came.com on the entire range of Came products!

Came is a leading home automation, industrial and special plant technology projects manufacturing company.

A full range of household solutions: from operators for gates and garage doors, to shutter and awning winding motors, and even home automation control, to burglar proof and video entry systems. Technology and reliability to serve your business, thanks to solutions designed for powering large industrial doors, automatic doors, street barriers, turnstiles, access controls and parking facilities.

CUSTOMIZED ELECTRONICS FOR YOUR NEEDS!

The V6000 is available in the 24 V DC version. The table shows the main characteristics of the control panel, matched to the gearmotor.
