## Download APP:

Scan the following QR code or search “Smart Life” in APP store for iOS version or in Google Play for Android version.

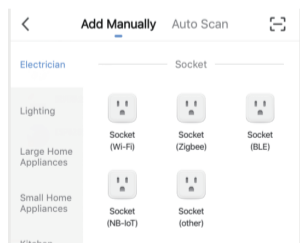

## Add Device:

**Step1:** Log in and sign up your Smart Life APP;

**Step2:** Confirm the phone is connected to WiFi (ONLY support 2.4G WiFi network), and click the upper right corner “+” icon in Smart Life APP;

**Step3:** Select the corresponding Wi-Fi Socket device icon;

**Step4:** Input the router password;

**Step5:** Please follow the instructions on the APP interface to add the device by following;

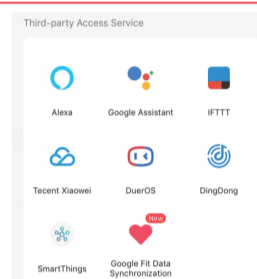

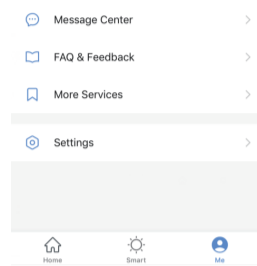

## How to use the third-party platform for voice control ?

**Step1:** Open the “Me” menu bar at bottom of the Smart Life APP

**Step2:** Select corresponding “More Services”;

**Step3:** Click on the third-party service platform you want to access;

**Step4:** Please follow the instructions on the APP interface to use the voice control;

## How to reset the socket to the factory mode?

Long press the button for 5 seconds, the indicator LED will blink, that means the socket already is set to factory mode.

## During the network configuration, is there anything that I should pay attention to?

1.If your router is dual-frequency, please set different passwords for 2.4GHz and 5GHz. Or you can turn off the 5GHz. Please disable the dual-frequency function.

2.If you still can't connect the smart device with your phone, please reset the router to factory settings or replace the router and try again.
